CONTEXT/TEACHING:

The Level 10 Weekly Meeting (LTM 12)

Write agenda on the board / pad **(D1)**

Now I want to go through the flow of the meeting:

Start on time!

- **Segue** (Good News) – personal and professional highlights
  - Transition from "in" the business to "on" the business

The next 3 agenda items are all reporting, no discussion. Fight the urge. Anything that is off track gets dropped down to the Issues List. Speed in reporting allows more time for solving issues. Off track #s and Rocks as well as some customer and employee headlines (almost always the bad reports, occasionally the good reports, too) drop to the Issues List so that you can later prioritize and IDS™ them.

- **Scorecard** numbers (On/Off Track)
- **Rocks** – Company and Individual (On/Off Track)
- Are our **customers and employees** happy?
  (brief good / bad reports – no dissertations)

- **To-Do List** – establishing weekly accountability (90% should be dropping off)
  - To-Do List review from last meeting (done/not done)

- **IDS** (Issues List) - You are attacking issues, making them go away forever.
  - We start with all issues on the Issues List
  - Prioritize 1, 2 and 3 (this should take no more than 30 seconds)
  - When tackling issues, we follow our Issues Solving Track, IDS **(D4)**
  - When everyone is fighting for the greater good, solving is much easier
  - Solutions that require action go to the To-Do List
  - Unresolved issues carry over to next meeting
- **Conclude** - assures clarity and measures meeting improvement – always 8 or better
  - Recap To-Do List (say Got It)
  - Cascading Messages – Who needs to know, when & how
  - Rate the meeting (1 – 10)

End on time!

    - The Scorecard (will assign in Scorecard section)

- Decide what day and time for L10s
  - Put in calendar and hit repeat forever

  - It's normal for the first several to be bumpy, just try it!
